

DID YOU KNOW...

...THAT WE ARE A DEDICATED MANUFACTURER OF SPECIALIST TEST AND MEASUREMENT EQUIPMENT?

TESTING AND MEASURING IN THE ELECTRONICS INDUSTRY FOR OVER 40 YEARS.

...THAT WE INTRODUCED THE WORLD'S FIRST COMBINED ROSE & PICT IONIC CONTAMINATION TESTER, WHICH IS AWARD WINNING, AND 6 SIGMA VERIFIED?

WITH HIGH RELIABILITY IN MIND, WE SHIELD YOUR ELECTRONIC CIRCUITS FROM FAILURE IN THE FIELD.

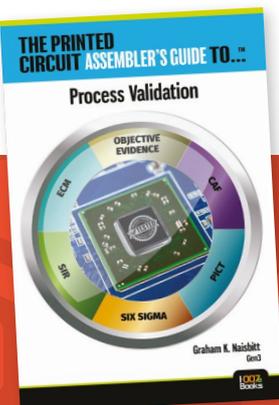

CONDUCTIVE ANODIC FILAMENT MONITORING
AUTOCAF2+TM

SURFACE INSULATION RESISTANCE
AUTOSIR2+TM

IONIC CONTAMINATION TEST SYSTEMS
CM+ SERIES

INDUSTRY STANDARDS HAVE CHANGED - 1.56 µg IS GONE. HOW ARE YOU VALIDATING YOUR PRODUCTION PROCESS? SPEAK TO US TODAY - WE ARE THE EXPERTS AND WE WROTE THE BOOK ON IT. DOWNLOAD USING THE LINK BELOW...

DID YOU KNOW...

...THAT WE INTRODUCED THE WORLD'S FIRST SOLDERABILITY TESTER?

MUST 3 SETS THE STANDARD

Performs solderability testing in accordance with all major international standards and comprises everything necessary for all forms of solderability tests.

Capable of measuring down to 0.001mN the MUST 3 is the most accurate and comprehensively equipped test system of its type in the world.

...THAT OUR STENCIL CLEANING SYSTEM 'GENSONIC' IS AWARD WINNING?

GENSONIC THE DEFINITIVE STENCIL CLEANING SYSTEM

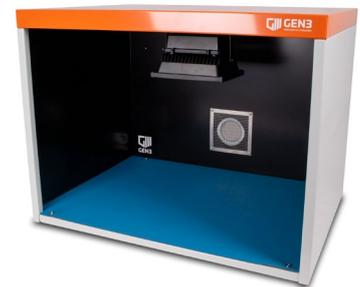

Using a 40kHz on-contact ultrasonic transducer for high efficiency cleaning of stencil apertures.

Can be used either in conjunction with our Stencil Cleaning Centre's or portable enough to be taken directly to the printer.

...THAT WE OFFER A UV INSPECTION BOOTH, IDEAL FOR HIGH RELIABILITY MARKETS INCLUDING MEDICAL?

UV INSPECTION BOOTH WE'VE GOT YOU INSPECTED AND PROTECTED

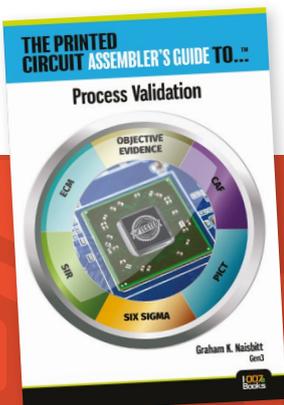

Assists in the inspection, repair, and/or reworking of conformally coated electronics assemblies.

Increases efficiency, with approved conformal coating that contains a UV tracer.

Improves effectiveness, the coating glows a brighter blue under the UV light source, making inspection simpler.

This is a perfect tool for counterfeit detection of bank notes and other applications requiring UV light.

INDUSTRY STANDARDS HAVE CHANGED - 1.56 µg IS GONE. HOW ARE YOU VALIDATING YOUR PRODUCTION PROCESS? SPEAK TO US TODAY - WE ARE THE EXPERTS AND WE WROTE THE BOOK ON IT. DOWNLOAD USING THE LINK BELOW...
